AUSTIN DREOSCH
SOFTWARE ENGINEER

📞 707-308-9486   ✉️ austindreosch@gmail.com   📍 San Francisco Bay Area, CA

Full-stack developer with 6+ years of independent project experience coupled with a comprehensive formal education in software engineering and a bachelors degree from Sonoma State University. Expertise spanning multiple languages, toolsets and paradigms. My defining quality is an endless curiosity and passion for learning, which has driven my success in my education. Exceptional soft-skills candidate and generous communicator with a bright spirited ambitious temperament.
EDUCATION

Software Engineering — 2022 - 2024
Springboard | San Francisco, CA

Intensive hands-on experience in end-to-end software development principles in multiple programming languages (JavaScript, Python, C#) with technical skills focused on full stack web applications in emerging technologies, data structures & algorithms, asynchronous dynamic programming, APIs, testing & C.S. fundamentals.

General Studies, Bachelor's — 2017 - 2021
Sonoma State University | Rohnert Park, CA

Graduated with my Bachelor's in a broad multidisciplinary program focused around critical thinking, mathematics, art, science, literature, communication, and problem solving.
